

SELF-DUMPING HOPPER

The Sweed self-dumping hopper is the fastest, safest, easiest and most economical way to load, transport and dump scrap and bulk material.

Sweed's hopper is designed for forklift handling and offers a unique gravity-activated door latch that eliminates the need for hand trip levers or pushing a bin over. This system offers safe, hands-free operation; allowing workers to stay out of harms way.

This top loading container is activated by tilting the mast of the forklift forward for complete discharge of contents. As the container tilts, the self-locking mechanism will release the door. As the container is lowered to the ground it will reset and the door will lock. Within a matter of seconds the hopper is ready to go back to work!

1/2 CUBIC YARD CONTAINER

- Hopper Length (A)..... 33½"
- Hopper Width (B)..... 26½"
- Hopper Height (C)..... 36"
- Base Length (D)..... 39"
- Weight (*empty*)..... 248 lbs.

BENEFITS

- Safe Hands-Free Operation
- 12 Gauge Formed And Welded Steel Construction
- Rust-Resistant, Industrial Finish
- Shipped Fully Assembled
- Standard Fork Lift Openings
- Safety Chain Secures Hopper To Handling Vehicle
- Perfect Hopper For Loads Up To 2000 Lbs.

SUGGESTED APPLICATIONS

- Light Weight Recycling Of All Types
- Plant Maintenance
- Wood Scrap Of All Types
- Paper / Cardboard
- Plastic
- Light Metals and Shavings
