

ARTICLE -10:

WARRANTY

10.1.- Warranty period, 1 (One) year.

10.2.- In the event of repair stenosis within the warranty period in the context of defective material or defects caused by the Manufacturer, the Representative shall be responsible for the supply of the workforce required for repair, and the Manufacturer shall be responsible for the supply of materials and spare parts.

ARTICLE -11:

REPAIRS

11.1.- When the warranty period expires, the Representative can make the necessary repairs and request the Manufacturer's help to provide technical support if needed.

11.2.- In the event of the warranty period and the completion of this contract, the Manufacturer is committed to providing the necessary spare parts with the Representative. The price of the requested spare parts will be billed by applying a discount on the price list.

11.3 All certificates required for the United States and Canada must be provided by the Representative. The Manufacturer shall provide the relevant technical information and drawings
